Laut Brothers,
HARDWARE & GROCERIES.

Pioneer Store

New Dry Goods.--Serges are very popular this year, and we have a good variety in Staple Colours; also our Dress Goods Department is complete with a large range of Popular Cloths, and their smart appearance and good wearing qualities will win for them a preference with the best dressed ladies. We have a large range of **New Gingams, Costume Cloths, Galatias, Prints, &c.**, and the patterns are better than ever.

New Spring Shoes.--We have been fortunate in securing the "Hart" Shoes for Men, without doubt one of the Best Shoes in Canada. We feel confident these shoes will gain the popularity they deserve with those who appreciate a classy, up-to-date last, together with undoubted durability.

New Hats & Clothing.--The first shipment of "Campbell's" Clothing has arrived.

This is the brand that was so popular last year and met with such ready sale. Repeat orders testify to the merit and speaks well of the reputation that this clothing has gained in this district.

We have secured the agency for the "Barrington Hat," no Hat made has a better name for style and durability at the price are conceded to be the best value offered.

See our Range of Styles of Early Spring Hats.

Lenten Specials.--Fresh White Fish at 10c. per lb. Pinnan Haddie and Kipperd Herring; at 15c. per lb. Oysters, Salmon, Sardines and Kipperd Herrings in Tins.

Wm. Urquhart,
GENERAL MERCHANT

Local and General

J. R. Gilechrist and wife spent Easter Sunday in Carstairs, J.

R. C. Neff lately in the C.P.R. employ here has gone to Baseno, where he is working on a survey party.

A meeting of the Women's In- will be held in the Fire Hall, on Saturday, April 5th, at 3 p.m. The ladies are cordially invited to be present.

McRory and Sons have a limited amount of good Timothy Seed for Sale. Price 10c. per lb.

Application for Lease of Road
Allowance or Surveyed
Highway.

NOTICE IS HEREBY GIVEN THAT
The Washington Alberta Land Co. Ltd.,
of Crossfield, Alberta, has made application
to the Minister of Public Works,
Edmonton, for a lease of the following
road allowance or surveyed highway,
viz., the road allowance running north
and south on the west side of the south
west quarter of section thirty-five, Town-
ship twenty-eight, range one, west of the
fifth meridian.

Any protest against the granting of the
above mentioned lease must be forwarded
to the Minister of Public Works, Edmon-
ton, within thirty days from the date of
this notice.

Dated at Crossfield, February 26th, 1918.
Washington Alberta Land Co. Ltd.,
GEO. P. STOOKE,
(Applicant.)

Airdrie Notes.

Ray Ross from Illinois, who has
bought the Roger's farm is in town for
a few days. He is stocking up his
farm ready for the spring.

Jas. Main, the owner of the Over-
man ranch is in town, buying im-
plements ready for spring work.

M. D. Soper was in Lacombe dur-
ing the week dealing in cattle.

L. Farr went to Edmonton on
Wednesday, the 19th, returning on
the 20th.

Miss Tracy Patrick is visiting Mrs.
Stenenson, for a few days.

Frank Puntus has bought an auto
but so far neither the car nor Frank
has appeared. Bucking already.

these horses.
This offer holds good until April 1st.

SITUATION WANTED.

WANTED.—Situation on a Ranch, near
Crossfield, required by a young man, six
months Canadian experience.—Apply at
Chronicle Office.

OUR PULPWOOD

Sufficient Cut Yearly to Keep One
Hundred and Twenty Mills Going

Fifty-six per cent. of the pulpwood
cut in Canada during the year 1911
was exported to the United States.
This is the fact shown by statistics
collected by the Forestry Branch of
the Department of the Interior.

The total quantity of pulpwood cut
in Canada during 1911 was 1,520,227
cords. The quantity exported amount-
ed to 844,739 cords, while the re-
maining forty-four per cent. (673,233
cords) was manufactured in Canada.
The value of this pulpwood was
\$5,340,592 (an average of \$6.29 per
cord.) Had the wood been retained
in Canada and manufactured here, it
is estimated that the value would
have been increased to about \$15,000,
000.

Had Canada manufactured into
wood-pulp all the pulpwood she pro-
duced, she could have had enough to
supply a hundred and twenty-two
mills of the average size, of those
operating in Canada, instead of the
fifty-four she now has. Quebec could
have supplied sixty per cent. more
mills than she is now doing, and New
Brunswick could have doubled the
number of her mills.

THE TALL CHIMNEY

Hamilton's Lesson to Canada in Fac-
tory Development

Hamilton exhibits probably the best
fruits of moderate protection to be
found in Canada. During 1913 alone
that city received from the United
States five big factories which will
invest approximately two million dol-
lars at once, and more in the near fu-
ture. These five factories will manu-
facture steel cars of all kinds, steel
and malleable castings, porcelain-ware,
and air-brake and other railway equip-
ment. The two thousand employees
will require at least four hundred new
houses in which to reside with their
families, besides a number of new
stores from whose counters mer-
chants will sell them the daily neces-
saries of life. In addition to these
five big firms from the United States,
there are a great many smaller ones
coming from the States to Hamilton
and also a large number of purely
Canadian firms which will begin op-
erations in that city during the year.

distillation, heartache, and horror struggled in his brain against the fact he had resolved to hold.

She does not know! And if you must die, I will die with you," she said.

Again and again he had repeated the words aloud through the long, dark, shuddering night, his body shaken, but comparatively unimpaired. He came out into the light of day, supported by the arm of Lilius, his first friend, and he had to be helped to preserve his sanity, he must seek out Lady Anne and force the truth from her.

"It was Miss Lilius, Mrs. Ann," explained, sobbing noisily. She had dreamed two nights that she had seen her husband, and that he had come from the room of the Governor's House half-crazy about you. You never think of that, but she helped me to get up, and she had a hammer like one possessed."

A little later, as Harry, washed and shaved, with his wounded wrists bandaged, came down the stairs to the front parlor, taking some much needed food, John Annning came home at last, and he went to Lilius, through the half-open door.

I owe my life to you, he said, as I must
to the country and to the people I love.
But before I do anything else, I must
tell you the Abbey and settle: my
country comes first.

John Abbey paused and listened.
Then he crept out to the back and
saw the two shattered men. He
went back and told the woman. His
wife he strode out of the house and
made his way to Lady's Abbey.
He had been married for a long time.
He rang three times at the gate but
no answer came. Then he rang
four times and the door opened. His
fingers and spoke to him in a voice
which quivered.

"Come in," she said, "I
know it's all along."

Harry had no idea of her meaning.
He was a man of the world, a man
of burning subject to give his
mind to her words. He found that
the woman was a woman of the world.
Virginia had left on the previous evening
and there was no one about as
usual. He went in and found the
hall into the drawing-room.

Here he waited for several minutes.
Then he saw the woman. She was
sitting into the room and facing him
in a seat white face and no words of
welcome.

"Come," he cried out passionately,
"bring you nothing but pain and worry.
But I must see Stephen Jessop. You
have been married for a long time.
I have never been deceived in him
she answered quietly; and you shall
see him."

With that she led him across the
drawing room which was adjacent
to the hall. He opened the door
(To be Continued)

They Wanted to Hear it
Now, children, said the teacher to her kindergarten class, I want you all to be very quiet, so quiet in fact, that you could hear a pin drop.
Everything had quieted down nicely and the teacher was about to speak when a little voice in the rear of the school room squeaked forth: Go ahead, please, teacher, and let her drop.

Clean Stomach, Clear Mind.—The stomach is the workshop of the vital functions and when it gets out of order the whole system clogs in sympathy. The spirits flag, the mind droops and work becomes impossible. The first care should be to restore healthful action of the stomach and the best preparation for that purpose is Farmelee's Vegetable Pills. General use for years has won them a leading place in medicine. A trial will attest their value.

Doing the right thing is seldom a source of worry.

The fire of genius is often unable to make the pot boil.

Minard's Liniment Relieves Neuralgia

Cheerful Under Difficulties

If you make any noise, threatened the holdup man, I'll stuff this handkerchief in your mouth!

The victim regarded it with a ghastly smile.

Oh, that's such an old gag, he protested.

No, it doesn't. I took a girl to the circus once, and she told me she thought the hippopotamus was cute.

Take Hall's Family Pills for constipation.

Weather Wise

In a certain town the local forecaster of the weather was so often wrong that his predictions became a standing joke, to his no small annoyance, for he was very sensitive. At length in despair of living down his reputation, he asked headquarters to transfer him to another station.

A brief correspondence ensued. Why, asked headquarters, do you wish to be transferred? Because, the forecaster promptly replied, the climate doesn't agree with me.

Bluff

Mr. Badgerton is here, sir, said the
chief clerk. Shall I show him in?
No, replied the great organizer, let
him wait in the ante-room for about
three-quarters of an hour. He has a
big proposition, but I am anxious to
keep him from getting the idea that
I consider it worth while.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness and often convulsions. Under these conditions the best remedy that can be got is Miller's Worm Powder. They will attack the worms as soon as administered and will grind them to atoms that pass away in the evacuations. The little sufferers will be immediately eased and a return of the attack will not be likely.

No Encouragement
Parson (to workman who keeps taking nips from his bottle)—Do' you know, my man, I never tasted spirit in my life.
Workman—No, an' you ain't a-goin' to taste mine neither.

A Soft Answer

You seem to be an able-bodied man. You ought to be strong enough to work.

MOURNING IN GREECE

KING OF HELLENES A VICTIM OF ASSASSIN'S BULLET

King George of Greece was shot down on the streets of Saloniki, and Ancient Nation is plunged in Mourning. Prince Constantine Will Succeed to Throne.

Saloniki.—King George of Greece was assassinated while walking in the streets of Saloniki. The assassin was a Greek of low mentality, who gave his name as Aleko Schina. He shot the king through the heart. The king was accompanied only by an aide, Lieut. Col. Franchouda. The assassin came suddenly at him and fired one shot from a seven chamber revolver. The tragedy caused intense excitement. Schina was seized immediately and overpowered. The wounded king was lifted into a carriage and taken to Papatou Hospital. He was still breathing, but died within half an hour.

Prince Nicholas, the king's third son, and other officers hurried to the hospital. Arriving first, Prince Nicholas announced the officers and speaking in a voice choked with sobs said:

"It is my deep grief to have to announce to you the death of our beloved king, and invite you to swear solemnly to your new sovereign, King Constantine."

Crown Prince Constantine, who succeeds King George, is present at Janina. He is expected to come here with all possible speed.

The assassin was taken to an evil looking fellow about 40 years of age. Upon being arrested he refused to explain his motives. He was taken to the hospital. He declared that his name was Aleko Schina, and in reply to an officer who asked him whether he was guilty for his country, answered that he was against governments.

Schina maintained a perfectly impassive demeanor, which was suggestive of his being irresponsible for his actions.

Notwithstanding the rapidity with which the king received attention he was found to be dead on arrival at the hospital. Precautions were at once taken throughout the city and order in the streets was maintained.

The king fell into the arms of his aide when shot. Two soldiers ran up on hearing the shot, and tried to support him. He was placed in a carriage and efforts were made to stop the bleeding. He was taken to the hospital on the way to the hospital near by.

When Prince Nicholas had the soldiers to swear fealty to Constantine, he shouted: "Long live the King."

Prince Nicholas is the only member of the Royal family who survived. Mourning emblems are displayed everywhere.

The Greek government has issued a proclamation announcing that the oath of fealty to King Constantine has been taken.

After his triumphal entry into Saloniki, the king had been accustomed to take an afternoon ride in the famous White Tower or to the cavalry barracks in Lesser Karaburnum.

The king's confidence in the people was so great that he went out freely, accompanied only by a single eunuch. The danger to the king was apparent to the members of his entourage, who repeatedly, but without avail, requested him to refrain from the presence of civil guards.

A few days ago four gendarmes were ordered to follow the king. Their presence was considered so objectionable to His Majesty that the number was reduced to two. These followed at some distance.

Immigration Figures

Winnipeg.—Although the increase in the immigration into Canada during February was a little less than in the first month of the year, the figures show an increase of 11 per cent. over the corresponding month in 1912.

In February, 1913, those entering Canada by way of the ocean ports totalled 6,776 as against 5,885 in the corresponding month last year—in other words an increase this year of 26 per cent. The total arrivals from the United States, on the other hand, shows a decrease of 3 per cent. compared with February, 1912. Last year the total was 5,782, while last month it only reached 5,572.

Canadian Teachers Welcomed to Jersey

London.—Jersey will give a very hearty welcome to the Canadian teachers, if they decide to accept the invitation to visit the Channel Islands this year.

Sir William Vernon, chief magistrate of Jersey, is taking a deep interest in the project, and arrangements are being made for municipal fetes, a battle of flowers and similar entertainments, which are the charming feature of the life of these islands. It is hoped that the visitors may be able to spend a few days in each of these islands, and the authorities and the various municipalities are combining to provide an extensive programme of hospitality in aid of the Canadian teachers.

Settlers Flocking in

Calgary, Alta.—Hundreds of settlers are flocking into the Peace River country, according to the statement of Provincial Publicity Commissioner Charles Hochstetler. For the past 30 days every train leaving for the Grande Prairie country has been black with homeseekers, many of whom are taking in with them stock, farm implements and provisions enough to last for a year.

TO SPEND MILLION

Thousands of Which to go to Dominion Parks

Edmonton, Alta.—Seventy thousand dollars for improvements to Jasper Park, three hundred thousand dollars for improvements to Rocky Mountain Park, Banff Glacier and Yoho Park; twenty-five thousand for the construction of a motor road from Kaslo to Banff, twenty-five thousand for developments to Buffalo Park, Vainwright, and fifteen thousand for similar work at Waterton Lake Park.

The foregoing figures, exclusive of the new bath house at Banff, represent the amount to be expended on Dominion Parks during the coming year. Besides these amounts, the Grand Trunk Pacific will construct a tourist hotel which will cost in the neighborhood of three-quarters of a million. It will be located at the Miette Hot Springs.

WEST IMPORTS STOCK

Decay of Ranching Exemplified by Dwindling Importable

Moose Jaw, Sask.—As further evidence as to the decay of ranching in western Canada, J. D. Watson, questioner at A. J. Macpherson, 250, Mont., has arrived here with 360 head of stock which he brought up from the south. He states that this year he brought three hundred head to Western Canada from Montana and Idaho.

He stated that he had been sent here on order to supply the demands of packers and farmers. Last year he brought 10 trains of stock to help populate the farms and ranches of Alberta and Saskatchewan.

To Develop Coal Areas

Regina.—Hand in hand with the

investigation into the practicability of diverting the water supply in the South Saskatchewan river is also being instituted an investigation into the feasibility of generating power at the coal fields of the province.

This work has been placed in the charge of A. J. Macpherson, who has already arranged with S. M. Darling to install a test carbonizing plant at Estevan to try out a special method of producing the lignite coal to make it suitable for commercial purposes.

The scheme under way is to provide a means whereby this coal may be put on the market to meet competition of the coal from various other sources of supply. If the test proves successful, and Mr. Macpherson has every hope that it will, it will be the means of developing the coal fields in the way of low grade coal now existing throughout a large part of Saskatchewan. This work is an extension of the findings of the investigation made last year by H. Wynne-Roberts, and along the lines which were indicated to be most probably successful.

DOUBT BRITISH SUCCESS

U.S. Experts and Aeroplane Super-

iority in British Army

Washington.—Aeroplane experts in the War and Navy Departments have argued the ideas that the British army has evolved a flying machine superior to any in the possession of other nations, as announced in the House of Commons by Colonel Seely, Secretary of State for War. Captain Alexander, chief of the Bureau of Navigation of the Navy Department, was inclined to accord aeroplane honors to the signal corps of the army.

Expressed grave doubt that the British aeroplane had made any revolutionary advance.

CHURCH AND STAGE

Protest Against Cramming Food Into

British Suffragettes

London.—At a big public meeting, here strong public protests were registered against the forcible feeding of imprisoned suffragettes. The Bishop of Lincoln, who presided, declared that the suffrage movement was a grand demonstration of moral force against brute force.

Forbes Robertson, the actor-manager, asserted that forcible feeding would not be permitted in America. George Bernard Shaw said it was illegal, but that Reginald McKenna, the Home Secretary, proposed to legalize it by act of parliament.

Bramwell Booth to Come

Toronto.—Bramwell Booth will

make his first visit to Canada as commander in charge of the Salvation Army next fall, according to the November list. He will hold meetings in all important Salvation Army centres, with a special tour of Ontario, and make extensive inspection of the Canadian work with a view to securing rapid territorial extension. He will open new social working buildings at Fort William, Winnipeg and Calgary.

Australia Gives \$10,000

Sydney, N.S.W.—The Federal Government has decided to make a contribution of \$10,000 to the Scott Memorial Fund. The Prime Minister has received a letter from the Governor of the Terra Nova intimating the fact that it is the intention of the expedition to present the Commonwealth Government with complete records and publications of the expedition, including the history of the expedition written in Scott's own words.

CANADA IN LONDON

FINEST SITE IN METROPOLIS FOR DOMINION GOVERNMENT

Earl Grey Secures an Option on Valuable Property to be Used for Dominion Government Buildings—A Permanent Exhibition of Canadian Products.

London.—The Improvements Committee of the London County Council announces that Earl Grey has asked in consideration of a payment of \$15,000 a year, to be granted an option for three years of taking the Strand site on conditions to be hereafter arranged. The area involved is about 124,000 square feet, and is considered to be the finest site for the new Dominion Government building which was proposed some time ago.

He stated that he had been sent here on order to supply the demands of packers and farmers. Last year he brought 10 trains of stock to help populate the farms and ranches of Alberta and Saskatchewan.

The scheme under way is to provide a means whereby this coal may be put on the market to meet competition of the coal from various other sources of supply. If the test proves successful, and Mr. Macpherson has every hope that it will, it will be the means of developing the coal fields in the way of low grade coal now existing throughout a large part of Saskatchewan. This work is an extension of the findings of the investigation made last year by H. Wynne-Roberts, and along the lines which were indicated to be most probably successful.

This work has been placed in the charge of A. J. Macpherson, who has already arranged with S. M. Darling to install a test carbonizing plant at Estevan to try out a special method of producing the lignite coal to make it suitable for commercial purposes.

FAMOUS POLICE CHIEF

Louis Lepine, Prefect of Paris, Re-

signed After 20 Years Service

Paris.—Louis Lepine, the prefect of police, who resigned after 20 years of service, M. Lepine is 67 years old. After participation in the Franco-German war, he was called to the bar at Lyons, his birthplace, and in 1877 was appointed sub-prefect of the police. From 1881 to 1891 he was chief secretary of the prefect of police at Paris and in 1892 he succeeded M. Loz, as prefect of police.

M. Lepine was noted for his great activity during the troubles in Paris at the separation of church and state when he was continually on duty to suppress disturbances at the churches, which were occupied by militant congregations. He also attracted much attention by the aggressive manner in which he suppressed the gangs of apaches which for a time terrorized Paris, and he took a prominent part in the capture of the motor bandits whose organization was broken up last year.

Virtually every monarch or head of a state in Europe knew M. Lepine personally, for he was present at their arrivals and departures from the French capital and he took sole responsibility for the safety of these monarchs. He was always in the best of the fighting when the recent labor demonstrations were in progress, or when the strikers got out of hand.

Saskatchewan Gains Award for Best

Oats

Columbia, B.C. Canada has just gained world-wide renown for its oats, the growers of this prize-winning cereal have been awarded the National Cereals Trophy for the best of oats shown at the National Cereals Exposition held here.

This prize of \$1,000 was open for the best of oats shown at the National Cereals Exposition held here.

J. C. Hill and Sons are now famous as growers of oats as they have secured the \$1,000 for the best bushel at the Columbus, Ohio, Corn Show and have also secured \$1,000 for the best bushel of oats at the National Cereals Exposition held here.

Since starting in the West, however, they have given up most of their time and ground to the growing of oats.

Warns Outsiders Against Making

Rash Rulings

Vancouver, B.C. M. J. McGivie, M.E., of Ottawa, son of former governor of Klondike, has just returned from Sikkim, a small country where there is no government and no rulers. He says that the people are going north by every steamship from Seattle and Vancouver. Mr. McGivie says:

"I think it my duty to warn the people on the outside from being stampeded by the news that has been given. There will be lots of time to get in on the ground floor, but it is a long time before it will be successful."

There will be lots of time to get in on the ground floor, but it is a long time before it will be successful."

There will be lots of time to get in on the ground floor, but it is a long time before it will be successful."

There will be lots of time to get in on the ground floor, but it is a long time before it will be successful."

THE SUNDAY SCHOOL

LESSON XIII.—FIRST QUARTER, FOR MARCH 30, 1913

Text of the Lesson, Comprehensive Quarterly Review—Read Heb. xi, 1-19—Golden Text, Ps. xxiii, 4.—Commentary by Rev. D. M. Stearns

"In the beginning God created the heavens and the earth." The Golden Text is a wonderful statement containing just seven Hebrew words and twenty-eight Hebrew letters and tells the whole creation story, which is stated in other words in Ps. xxiii, 4, 9; Heb. xi, 3. Gen. 1, 2, tells of a great catastrophe which brought the earth into a condition of chaos, waste and void, from which it was delivered in six days by the Creator.

Lesson II.—Man the Crown of Creation, Gen. 1, 26, 27; 1, 7, 9-10, 24. Golden Text, Gen. 1, 27. "God created man in His own image, after a good and perfect restoration God made man male and female, man from the dust and woman from part of man, and gave them dominions over all the works of His hands. In these two chapters we have a full account of the restoration without sin or curse of any kind, and God in fellowship with man. We have also the institution of the Sabbath and marriage.

Lesson III.—Man's First Sin, Gen. ii, 1-12, 25. Golden Text, Gen. ii, 34. "Every one that committeth sin as the servant of sin. Here we have the story of the fall of man, the devil, the first destructive critic questioning the word of God and the first murderer, Cain, who was slain in the third chapter from the end of the Bible we have his final doom. In the chapter of Genesis, ii, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 57

= LIBERAL = CONVENTION

WILL BE HELD AT

**The Fire Hall,
CROSSFIELD,**

AT 2-30 p.m.,

ON MONDAY, 31st March, 1913.

— ALL LIBERALS are Cordially Invited. —

**The Hon.
C. W. FISHER**

WILL ADDRESS THE MEETING.

**Support Sifton for Good and
Progressive GOVERNMENT.**

For information address, W. B. EDWARDS, } Crossfield.

WHY KEEP ON COUGHING ?

Here is a Remedy That Will Stop It

Do you realize the danger in a neglected cough?

Then why don't you get rid of it? Yes, you can shake it off, even though it has stuck to you for a long time, if you go about it right.

Keep out in the fresh air as much as you can, build up your strength with plenty of wholesome food, and take Na-Dra-Co Syrup of Lissed, Licorice and Chlorophyll.

This reliable household remedy has broken up thousands of hacking, persistent coughs, which were just as troublesome as yours, and what it has done for so many others it will do for you.

Na-Dra-Co Syrup of Lissed, Licorice and Chlorophyll contains absolutely no harmful drugs, and so can be given safely to children, as well as adults. Your physician or druggist can confirm this statement, for we are ready to send them on request a complete list of all the ingredients.

Put up in 25c. and 50c. bottles by the National Drug and Chemical Co., Canada, Limited.

ODORS AND MOISTURE

A Scheme That is said to Improve the Sense of Smell

The most striking fact connected with my school career, said the prep school graduate was a peculiar ability on the part of our commandant to detect the faintest odor of smoke in a room on his daily inspection.

The school I attended was of the military variety, and smoking was a rather serious offence. No matter how much a room had been aired or fanned with wet towl, it was previous to the inspection, the offender was always caught.

After I had received my finishing touches and become a citizen I made so bold as to inquire from what peculiar disposition of providence the ability was given to detect one molecule of smoke in a hundred cubic feet of pure air.

The old boy smiled and blinding me to secrecy, imparted the reason of his wonderful ability. Then he took me to a boy's vacant room and told me to wet my finger and rub my nostrils with it and sniff.

Go and behold, where before there seemed no taint in the atmosphere was now detected that stink of old tobacco smoke! Since then I have taught school myself and have used the trick occasionally, only for experimental purposes, however.

I have also sought the scientific explanation, but with little success; it may, however, be somewhat analogous to the process of tasting. You know it is impossible to taste anything that is not dissolved in water or is not a liquid itself.

So the moisture on the nostrils must carry the smaller particles of smoke in a more or less damp state to the olfactory nerve ends and thus make the smell more apparent.

At least this is the only explanation I have ever found for the phenomenon.

The same thing can also be used for detecting other odors and I have found it useful on a number of occasions for this purpose, both in analytical chemistry, when only a small particle of a certain material is available for analysis and in detecting faint perfume from flowers that are ordinarily quite odorless.

Dr. J. D. Kellough's Dysentery Cordial is compounded specially to combat dysentery, cholera morbus and all inflammatory disorders that change of food or water may set up in the stomach and intestines. The complaints are more common in summer than in winter, but they are not confined to the warm months, as undue laxness of the bowels may seize a man at any time.

Such a sufferer will find speedy relief in this Cordial.

Every day brings us nearer to the completion of the Grand Trunk Pacific Railway. This is emphasized by the fact that passengers can now leave Edmonton at 10.00 p.m. in Pullman Sleeping Car arriving at Pittsburgh at the heart of the Canadian Rockies, Alberta, at 9.20 the next morning and Tele Jeanne Cachee on the Fraser River in British Columbia, at 2 o'clock the next afternoon, 16 hours to do the journey.

This is remarkable when it is considered that two years ago last summer, an exploration party in charge of Mr. H. H. Charlton, General Advertising Agent of the Company, penetrated the forests and followed the trails through the Yellowhead Pass, which trip occupied 37 days of continuous travel by pack train between Edson and Tele Jeanne Cachee. This same distance is now covered by the iron road with a comfortable train in 10 hours.

WINCHESTER

"Nublack" and "New Rival" Loaded Shotshells

Good shooters and sure shooters are Winchester "Nublack" and "New Rival" black powder loaded shells. They are strongly made and loaded with only standard brands of powder, shot and wadding. Their even pattern and deep penetration make them sure game getters. You will find nothing better. Sold everywhere. Look for the Red W on the box.

They Are Uniform, Highly Satisfactory Loads.

Sold to be the largest tree trunk in the world is that of a tree trunk in Hilla, Mexico, which measures 115 feet in girth.

Nell—Don't you think Miss Antique keeps her age remarkably well? Belle—Sure. She never gives it away.

THE FARMER AND HIS GRAIN

The only sure and satisfactory way in which the Western Farmer can secure the highest possible market value for his wheat, oats, barley and flax is by shipping it by the carload to Fort William or Port Arthur, or to Duluth if cars cannot be got for the other terminals (loading it if possible direct into the car over the loading platform so as to save elevator charges and dockage) and employing a strictly commission firm to handle and dispose of the grain.

We continue to act as the Farmers' Agents solely on a commission basis. We are not truckmen and we never buy the Farmers' grain on our own account, but look after and dispose of the grain entrusted to us, as the agents of those who employ us, and it is our desire, and endeavor, to give everyone the very best service possible. We make liberal advances against car shipping bills, and will also carry the grain first a time under advance, and will also carry the grain first a time under advance, and will also carry the grain first a time under advance.

all Farmers to write to us for shipping instructions and market information.

Use Your Influence for Concrete Roads

There's no need to point out the advantages of good roads.

The kind of good road, however, is another matter.

It used to be that there was little choice. Macadam for the country and smaller cities was the only material used. Then, twenty years ago concrete was introduced. And for these twenty years concrete has been proving itself.

It is now acknowledged to be one of the best known materials for roads or for street pavements—to be as far superior to ordinary macadam as macadam is superior to sand.

Estimating the Cost. It is not the first cost of a road that determines its real cost; nor is it the first six months of service that determines whether it's a good road or a poor one.

The only sure way to find out what a road has cost, is to add to the first cost all that is spent for repairs in fifteen or twenty years.

Now, that's where concrete roads win every argument—their first cost is practically their only cost; they require little or no upkeep.

Address—Good Roads Department, Canada Cement Company, Ltd., Montreal

cost. Concrete, instead of needing repair, actually becomes stronger with age.

How You Can Help. You can help your community to come to a wise decision the next time the question of roads comes up. Your influence will be a factor in providing yourself and your neighbors with thoroughly satisfactory highways.

We wish to convince you first—we know that when you are "backed up" with facts which we will gladly furnish you, you will be able to convince your neighbors.

Make it your business to get these facts. We have a special department which will not only give you the facts, but will also supply valuable assistance to any community desiring to build concrete roads.

Ask for "Good Roads Literature" or use the coupon.

Please send me the facts about concrete highways.

Washday Loses Half Its Terrors

Why he was Glad

The man with the long beard stood pensively at the curbing gazing at the passing traffic in the street. I hail with delight the advent of the automobile, he muttered aloud, for no longer need I fear crossing the street, lest some hungry horse mistake me for a waiting bale of hay.

Minard's Liniment Cures Dandruff.

The pie trust would retire from the field vanquished and binding up the wounds to its pocketbook were the women to fight it with the kind of pie that mother used to make.

The man who lives beyond his means pays for it, if not in cash.

A girl who knows she is pretty likes to have her suspicions corroborated.

An Example

Wealth doesn't always bring happiness, remark: the youngster with the large spectacles.

Now, asserted the other kid. Look at me cousin young. He's got two cents, and he can't decide between lollipops and chewing gum.

Young man (whispering to Jeweller)—That engagement ring I bought of you yesterday.

Jeweller—What's the matter with it. Didn't it fit.

Young man (cautiously)—Sh! It did not have a chance. Gimme studs for it.

A MESSAGE FOR THOSE WHO SUFFER

MRS. E. J. TALBOT TELLS THEM TO FIND A CURE IN DODD'S KIDNEY PILLS

She Had Rheumatism, Lumbago, and Neuralgia and Found the Remedy She Was Looking for in Dodd's Kidney Pills.

Hamilton, Ont. (Special).—"I know there are a lot of people who suffer and do not know what will cure them. Dodd's Kidney Pills will."

These are the words of Mrs. E. J. Talbot who resides at 232 Wellington street north this city. And Mrs. Talbot speaks out of her own experience.

"Last July I was very sick," Mrs. Talbot continues. "My heart bothered me, my limbs were heavy, and I had a dragging sensation across the loins. Rheumatism, lumbago and neuralgia added to my sufferings, and the doctor I called in did not help my much."

"I finally decided to try Dodd's Kidney Pills. I have used several boxes and I am so much stronger and better that I feel I must recommend them to others."

Mrs. Talbot's complication of troubles all came from sick kidneys. That's why Dodd's Kidney Pills cured them. For Dodd's Kidney Pills are no cure-all. They simply cure kidney disease of any kind. They never fail to do that.

Of Course

Oh, Helen! Suppose I should faint some time, and I should come to in some young man's arms! What would I do?

Why, Margaret, keep your eyes closed, of course.

THE GOOD HEALTH

The good health of baby depends entirely upon whether his stomach and bowels are kept right or not. Keep the bowels working regularly and the little stomach sweet and baby will be well and happy. To do this use Baby's Own Tablets—they are a gentle laxative and have no equal. Mrs. Chas. Lapierre, Les Bouches, Que., says: "I have found Baby's Own Tablets very good for my baby and they kept him in good health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The sun may shine tomorrow, but that won't serve as an umbrella today.

Could Hardly Live for Asthma. Writes one man who after years of suffering has found relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives relief to all afflicted with asthma. Inhale the smoke or vapor. It brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Indred Who Would? Listen to this, wife, said Mr. Hubby, looking up from his newspaper. For every missionary sent abroad last year, America sent 1,449 gallons of liquor.

Wonderful goodness! exclaimed wife, who'd ever think missionaries were such drinkers?

He Knew

Tommy, said his mother, what would you like to give your cousin Willie for his birthday.

I know what I'd like to give him, answered Tommy, who had been bullied by the other boy, but I ain't big enough.

Minard's Liniment for sale everywhere.

Degraded

You are very low, observed the waiter man.

Yes, replied the official thermometer, ruefully, I fear I have taken a drop too much.

Hard Work

So you have a city job, have you? Yes.

Don't have to do any work, I suppose?

I don't, eh? I have to get my pay warrant every month and sign it and get it cashed.

"The Only Cure for Piles"

Writes Mr. Taylor in Telling His Experience With Dr. Chase's Ointment.

Mr. M. Taylor.

Because Dr. Chase's Ointment brings almost immediate relief from the dreadful itching, burning, stinging sensations of piles, it is well worth the attention of everyone suffering from this annoying disease.

In most cases, even after years of standing, Dr. Chase's Ointment makes a thorough and lasting cure of itching, bleeding and protruding piles. Mr. Maxwell Taylor, Charlottetown, P.E.I., writes: "To all sufferers from piles in any form I would recommend Dr. Chase's Ointment as the only cure. Over a year ago while in Boston I became afflicted with a dreadful itching. I went to a doctor, who gave me some ointment, which made me no better. A friend advised the use of Dr. Chase's Ointment, and by the use of two boxes I was entirely cured. You may publish this statement in order that other sufferers may profit by my experience."

Dr. Chase's Ointment proves its value by the relief it affords than by all the words we could use in its praise. It costs a box, all dealers, or Edman, Bates & Co., Limited, Toronto.

In the spring the young man's fancy gets a hunch that he will have to get busy or there won't be any summer clothes for him.

A Jolly Good Day

Follows

A Good Breakfast

Try a dish of

Deering binder

Deering Harvesting Machines

Is your present equipment of harvesting machines satisfactory?

How about your binder? How old is it? Does it lack the improvements which have been put on later model machines? If it does, you need a new one which will harvest your crop easily and quickly.

And where is your mower? Is it in good shape, or does it also lack the improvements which are contained in new machines?

Do you own a satisfactory hay rake?

How about the hay tedder?

Perhaps you already own some of these machines, but if you don't, isn't it good business policy for you to investigate Deering harvesting machines which are recommended by thousands of farmers?

If you will investigate the Deering machines it will help you to get better and bigger results. You will not go on using old, worn-out machines which do not have present day improvements.

An investigation does not place you under any obligation to buy. Come in and see us. Get a Deering catalogue which explains details.

Commercial contract rates upon application.

REV. A. THOROLD-ELLER, EDITOR AND PROPRIETOR

CROSSFIELD, ALTA., MAR. 27, 1913

Rev. A. Thorold-Eller Leaves Crossfield.

We have to announce that this week we sever our connection with this paper.

The Bishop having transferred the Editor to the charge of the Anglican Church at Brooks.

From a Church point of view we are not sorry, as we have, with the exception of a faithful few, received little encouragement and behind our back plenty of criticism. The criticism of course coming from those who do nothing to help.

We sincerely hope that if another clergyman is sent here that the Anglicans of this neighborhood will rally round him and give him that support and encouragement which is due from the people to their pastor.

To the faithful few who have appreciated the little church and its services we say good-bye with real regret, and in this connection we would like to mention our congregation at the Buttes school. We have driven the 17 mile drive in all sorts of weather and have always had a fair attendance of people who have shown by the effort they have made to attend the services and their attitude while there that in the midst of this material atmosphere that they do value things which make for spiritual welfare here and eternal happiness hereafter.

We are holding a special farewell service in the Buttes school on the 30th, and we shall be genuinely sorry to say good-bye to that loyal band of real Church people.

From a business point of view we are extremely sorry to leave Crossfield. We have been here a year and a half and from the first have received nothing but courtesy and kindness at the hands of the merchants and all those with whom we have come in contact socially.

We regret too that our connection with the paper has been so short, as we have been most interested in editing its columns and watching the progress of the little town generally, and here we would like to express our thanks to all the townsmen for their support and encouragement and especially are we grateful to that useful member of our community E. S. McTory, for much help and valuable advice in connection with the paper, and we ask that this help and encouragement may be extended to our successor Mr. Robt. Whitfield.

We feel confident that we are leaving the paper in good hands. Mr. Whitfield has had thirty years experience in newspaper work and we are satisfied that he will do his best to give the town a bright paper full of the latest news and published on time.

We will conclude by wishing all our friends in and around Crossfield every success and happiness, and may God's blessing rest upon them all.

A Bushel of Children.—Willie—I've been married five years and got a bushel of children.

James—How's that?

Willie—My name is Peck. I've got four children. Don't four pecks make a bushel?

Toast to the Ladies.

We are indebted to the Irish World for the following exquisite toast of Captain J. W. Crawford, Post-scout of the west.

This gem is surely worth preserving, some time ago in Boston at a banquet one of the young ladies passed a glass of wine across the table to him with the request that he drink a "toast to the ladies." The post-scout's hand and voice trembled as he said after taking the wine from the jewelled hand and looking into the laughing blue eyes of the young lady. "Miss this is a difficult task you have given me, but a soldier's duty is first to obey orders, and I shall try to drink a toast to woman—not in that however, which may bring her husband reeling home to abuse her where he should love and cherish—send her sons' to drunkards graves, and, perhaps her daughters to lives of shame. No, not in that, but, rather in God's life-giving water, pure as her chastity, clear as her institutions, bright as her smiles, sparkling as the laughter of her eyes, strong and enduring as her love. In the crystal water I will drink to her that she remain queen regent in the empire she has already won, grounded as the universe in love, built up and enthroned in the homes and hearts of the world. I will drink to her the full blown flower of creations morning, of which man is but the bud and blossom to her, who in childhood clasps our little hands and teaches us the first prayer to the great All Father; who comes to us in youth with good counsel and advice, and who, when our feet go down into the dark shadows, smooths the pillows of death, as none other can do; to her who is the flower of flowers, the pearl of pearls, God's last but God's best gift to man—woman peerless, pure, sweet, royal woman, I drink your health in God's own beverage, cold sparkling water."—T. FITZGERALD.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the nearest Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from the date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. COBY, Deputy of the Minister of the Interior, N.B.—Unauthorized publication of this advertisement will not be paid for.
